"UNUSUAL, ATTRACTIVE, OUTSTANDING" are terms to describe the Qantas Airlines' greatly admired display at the recent INTER-PEX exhibition in New York City. Developed around an authentic bush scene. it featured mounted animals of the platypus, kangaroo, kookaburra, and koala families from the "down under" region, along with a colorful showing of Australian wild flowers. A jet plane overhead, augmented by mail bags from the line's first round-the-world flight and a showing of many historic covers, rounded out the philatelic phase of the offering which was created by Qantas' New York public relations director Joyce Chivers.

The Once-Upon-A-Time Story released April 22 at San Francisco, Calif. was prepared by Charles R. Chickering. Matthew D. Fenton engraved the portrait of Lincoln, and Howard F. Sharpless the outling the outling lateral properties. The outling the outl Actually Saw Official Service

All three of the trio mentioned can be found in generous quantities in, for example, the "Seebeck" period of my country's philatelic history. Take the 1896 set prepared by the enterprising—if not equally ethica!—stamp promoter of two thirds of a century ago:

Mr. Minkus Objects

In the January 25 editorial, I stated that I did not like Philatelic Agencies and that these agencies were becoming a racket. Had I been a bit more specific or explanatory in this editorial Mr. Minkus might not have objected, but as it was printed Mr. Minkus feels that we were calling him a racketeer and therefore he ob-

jected. Immediately after publication of that editorial we had a rather sharp letter from. Mr. Minkus, but without any specific point in our editorial being mentioned. After some correspondence, I was finally able to get from him a statement as to just what he objected to. Here, in his own words, in a letter dated March 14, we have an answer. "You say that you want to know exactly to what part of your editorial I am objecting. Well to make

it short, clear and precise, your calling the Philatelic Agencies a racket since I pioneered in the establishment of the Israel and Swiss Philatelic Agencies in this country, you are implying that I am a racketeer! You have therefore insulted me personally and thrown aspersion at my business."

different in their operation and in a class by themselves.

In the United States Philatelic Agency either collectors or dealers can order direct and get service. No dealer or organization of any nature in the world can sell our United States Stamps and make a profit from them as no one can buy the stamps at a discount for resale or exploitation as is true of these other so-called Philatelic Agencies. This name is confusing and misleading as none of these foreign agencies operates on the same plan as the American.

In the case of Israel and Switzerland, collectors or dealers can still buy direct from either country at face value. In the agencies operated by Mr. Minkus from New York, dealers only can buy at face value. Collectors have to buy from their dealer and pay a premium. While we have no specific information as to terms under which Mr. Minkus operates, we do know that he makes a profit somewhere along the line and that this profit permits him to exploit the stamps of Israel and Switzerland. This brings him closer to the type of agency to which we object, but at the same time does not put him in the same class with the others because he has no control over the issuance or production of stamps for Israel or Switzerland.

Thus the agencies operated by Mr. Minkus are sort of in between that of the United States and agencies such as Liberia, Poland, Nicaragua, Ghana etc. Also, the proposed agency for Guatemala, if it is finally approved by the officials of Guatemala.

In these, the countries which are issuing the stamps have given up control of the issues to outsiders who are given a considerable discount from face value for such stamps as they can dispose. This discount provides them with a substantial sum of money they can use to exploit their sale.

In some instances even control over the period of validity of an issue, what may be released and how the stamps may be sold is stated in the contract. These Stamps are not available, usually, to dealers in the country of origin. In fact most of the stamps sold by the agencies never were on sale in the country of origin and as a whole the entire matter is purely an attempt to produce and sell stamps to collectors for a profit and a very big profit. A stamp for one, two or five shillings costs no more to make than one for two or five pence. Such are produced at a few cents per 1000 stamps. When sold on the basis of their face value they yield a tremendous profit for the country and the agency. It is because of these facts that we consider such handling and production of postage stamps as a racket and any agency that fits into such a picture is included.

This of course is our opinion and we maintain that we have a right to express our opinion. Perhaps the mistake we made was in not giving a complete story of the method of operation of the different agencies. Those as the Israel and Swiss, whose methods of operation are different agencies. ent than these others, would have indicated that we did not include Mr. Minkus as operator of a racket. When any country produces stamps, and permits outside interests to share in their production and control their distribution, and where their sale is definitely channeled to exploit the collector, we can only feel that such stamp issuing methods are not for the best interests of the hobby.

While Mr. Minkus in one breath disclaims that the Israel and Swiss Agencies which he handles are a racket, or that he is a racketeer, he refused to renew his advertising contract within our paper apparently as a punishment to us for expressing our opinion on so-called agencies, and e that i lies in his letters to apology to him the advertising will again be submitted. Such an attitude is similar to the methods a racketeer would use to get people to do his will: "You either say and print what I want you to say or print, or you get no advertising support from me."

Our columns have never been bought. We have lost advertising more than once because some dealer was doing things that he should not do and we exposed the acts. In some of these instances other publishers smugly sat on the side lines and reaped the additional advertising that we were losing.

The March 25 issue of STAMP COLLECTING, leading London week ly stamp paper, devotes its entire editorial page to a condemnation of these so-called philatelic agencies. It predicts their eventual explosion as we have done in the past. The hobby can only support a very limited amount of business. The more agencies that are formed and exploited the sooner the whole bubble will burst.

For the benefit of Mr. Minkus perhaps we should sum the whole matter up in this manner.

- #RW1-19, mint set of singles. Very fine centering through out, we went through a lot of ducks to come up with these Set at \$85.00.
- #RW1-19, used set of singles. Centering also far above average, net \$30.00.
- (221) #RW1-17, very fine mint set of singles, net \$60.00.
 (222) #RW1-14, mint singles. Fine to very fine set at \$45.00 Next we are listing some Scott's Specialty Albura, which were originally used for over the counter sales. Most of them contain choice material, some of them being on the more powerful side. As a customer would come in, they would simply pick out the set he wanted and by no means are the better sets gone. In fact, it seems to be just the opposite in the higher cataloged albums. There is also some duplication. As they would receive a set they would throw it loosely in the book while maybe also another set was there. The duplication, though, doesn't amount to much. All of them have been cataloged and we believe our net prices are the lowest anywhere considering the many choic; items which they contain.

 (223) GREAT BRITAIN, BRITISH EUROPE AND BRITISH OCEANIA,
 2.650 stamps with a catalog value of \$1.719 00. Many complete
 sets in this collection, even New Zealand has many of the
 early semi-postals. Probably the poorest showing is Great
 Britain. A real buy at only \$360.00.

 (224) BRITISH AFRICA, 2.205 stamps, another good album with
 many nice sets. Catalog value well over \$600.00. This one
 can have a new home for only \$140.00.

- many nice sets. Catalog value well over \$600.00. This one can have a new home for only \$140.00.

 BRITISH AMERICA, 2.870 stamps. The majority of the collection is mint and complete sets. Canada and Newfoundland is also included and it too, is loaded. Catalog value over \$3.000.01.

 Dius many more dollars not counted because of slight brown spots on a few sets. This collection will please even the specialist. Price only \$640.00.

 CENTRAL AMERICA, 3.030 stamps, catalog value of over \$800.00. Many interesting items in this collection, both mint and used. Price only \$155.00.

 SOUTH AMERICA, another two volumn collection with 5.790 stamps, catalog value of over \$1,600.00. This collection is primarily used and there are a lot of nice spots as the number of stamps would indicate. Price only \$299.00.

 CENTRAL EUROPE, another two volumn collection and this one is really loaded with nice Austria and Switzerland. Austria alone catalogs over \$800.00 and contain many complete sets, including good semi-postals and air mails. Switzerland has most of the early semi-postal sets with duplication. Other countries only fair, but of course, Austria and Switzerland are the nucleus of Central Europe, at least for stamps. There are 5.240 stamps with a catalog value of over \$1,700.00. Net only \$340.00.
- only \$340.00. MEXICO CANADA AND NEWFOUNDLAND, for some reason, these three countries were grouped together in this specialty album and all three countries are loaded and very heavy in mint. This is definitely no amature collection, even Mexico many complete sets of mint air mails. Catalog value \$922.00, net \$275.00.
- \$922.00, net \$275.00.

 SCANDINAVIA AND FINLAND. 2,235 stamps and powerful collection with a catalog value of over \$1.100.00. Net only \$200.00. INDEPENDENT COUNTRIES OF ASIA, two volume collection with 2,050 stamps. Not cataloged, but many nice spots, particularly Manchuko and Persia. Price for both volumns only \$99.00.
- \$99.00.

 EASTERN AND SOUTHERN EUROPE, 4.480 stamps in two volumns. I don't see anything really outstanding in glancing through these albums, but there are several spots worth a second glance. Of course, with this number of stamps, there has to be something worthwhile. Romania is probably the best with many complete sets. Books not cataloged, but surely both of them are worth \$145.00.
- END OF SPECIALTY ALBUMS
- END OF SPECIALTY ALBUMS

 LATVIA AND LITHUANIA collection, very nice assortment with 137 stamps mounted on Master Global pages. Catalog value \$72.00, net \$14.00.

 SCANDINAVIA, a real nice collection including some of the better complete sets, mint. 1,800 stamps with a catalog value of \$1,124.00, price only \$219.00. This is a real nice collection at less than 20% of catalog.
- at less than 20% of catalog.

 SCANDINAVIA collection, 1,160 stamps mounted in spring back type album. The catalog value and number of stamps would indicate this is not nearly the quantity collection as the preceeding one, but quality wise it seems to be about the same. There are many nice items in this collection, including some nice Iceland, also some nice Sweden semi-postals and pictorial sets. There doesn't seem to be anything for the last lo years or so either. Catalog value is \$192.00 net \$76.00.

 SWEDEN, collection of 620 different stamps. This one is a real beauty, mounted on loose leaf blank, pages and has a lot of late material included in mint condition. Plenty of complete sets and this surely would be a good collection for a specialist in Sweden. Collection has not been cataloged, we have priced it at our cost, plus a few dollars, one glance and you will be convinced that it is worth it, net \$135.00.

 BRITISH COLONY collection mounted in Albion stamp album.
- BRITISH COLONY collection mounted in Albion stamp album. Plenty of nice material in this, both mint and used, 1,800 stamps with a catalog value of \$346.00, net only \$59.00. (British America looks especially nice.)
 FOREIGN ACCUMULATION, various packets and sets including some better values. Including the good, bad and indifferent, there must be at least 5,000 in the box. Lots of value for only \$15.00.
- APPROVAL REMAINDERS. As per our advertising, which you have undoubtedly seen, we sell stamps at 2c each. These are usually commercial collections of 5, 10 or 20,000 different, After approximately half of the stamps are gone, we reduce the stamps to 1c each and after they are out a couple times at 1c each, they are more or less postage wasters, so we are now offering them to you at unbelievable low prices to clear our shelves. While it stands to reason the better stamps are gone, we believe you will find items cataloging up to 10c each and in some instances, probably considerably more. These books will average around 200 stamps per book and we want 30c per book, which figures out 15c per 100. This, by the way, figures about the same price as packet makers are advertising to buy for, the only thing is, we don't want to bother puling the stamps out of the books. Minimum order of 50 books, or \$15.00.
- of 50 books, or \$15.00.

 STOCK BOOK OF ARGENTINA OFFICIALS mostly used, must be at least 10.000 with good variety. This will be a good money maker if you have the desire to classify all these overprints. Price \$69.00.

 MEXICO, partial sheets of unused #394, 396, 397, 398 and 400. Seems to be pretty evenly balanced. Catalog \$948.00, we are asking just over 5% of catalog for this, net \$50.00.
- asking just over 5% of catalog for this, net \$50.00.

 Just recently we bought a dealer stock of complete sets, both mint and used and the majority is the sought after material. They have not been cataloged, but each set is placed in a glassine envelope with the catalog number and net price. We spot checked this and find his net prices are approximately 75% of catalog value. There is a good snowing of not only Europe, but British Colonies and Latin America. We will sell these in \$20.00, \$40.00 and \$75.00 lots at 1/3 of his net prices and regardless of the size lot you order, the sets will be all different. Suggest you definitely try this, we know the quality of merchandise and the low price will satisfy.
- UNITED NATIONS, complete mint sets, #1-75, C1-7, only \$30.00 per set, 7 available.
- NEWFOUNDLAND COLLECTION, 145 different stamps, used with a catalog value of \$232.84. This is a nice looking collection and has a lot of the hard to get item. Price only \$70.00. NEWFOUNDLAND COLLECTION, 100 different stamps, used. Another nice looking collection with many hard to get stamps included. Catalog value is \$148.88, net \$44.00.
- NEWFOUNDLAND COLLECTION, 92 different stamps, used, and another nice looking collection. Catalog value is \$77.25, net only \$23.00. NEWFOUNDLAND COLLECTION, mint. Of course, not as good as the preceeding one, but this one, considering the size, has also many of the hard to get items. Real clean looking collection, 110 different stamps with a catalog value of \$114.90, net \$35.00.
- (281) We have assembled several lots of 100 all different com-memoratives, starting with #610, which as you might expect, will be the best plate in the lot since they are averaging under 18c each. Price \$17.99.

"For our neighbors to the south in the Latin American countries, it was the Liberty Bell, so that the international airmail stamp has the Liberty Bell on it. In the European area, most people thought the symbol which characterized the United States best was the Statue of Liberty, so it was used on the 15c. . But in the very distant parts of the world, in Africa, Asia and the Middle and the Far East, the majority of the people said they thought of Abraham Lincoln as the symbol of

The Society of Philatelic Americans has released a revised edition of a most important handbook for collectors of U. S. especially those 2c and 3c Washington Series of 1912-

Both men collaborated previously the POD. and successfully on another hand-book dealing with "The United States One Cent Issues of 1851-1857". It too is an SPA handbook and available at the moment.

However, from the letters receiv ed from foreign correspondents and Americans who were there, our POD and its personnel has further to learn of the European way of doing Mrs. Misek or Mr. Pinas at the adthings. While this wouldn't flicker an eyebrow over here, it just does not seem to be in good taste to our overseas neighbors.

> I learn that the folks abroad, especially those attending the important formal functions, almost laughed up their collective sleeves at the International Award which was pre-sented by L. Rohe Walter to Sr. Auguet on behalf of the U.S. Post Office Department. In view of the speech which went along with it, attendees felt that the award would at least be a gold medal or other precious item.

It turned out to be one of those fabrikoid folders which the Department distributes so freely at first day ceremonies, having approximately 20 commemorative singles.

Humidity as such is no problem here. Stored mint stamps do not stick in storage as they do in some parts of the country. For this we are grateful. But don't take chances.

Keep them away from damp parts of the home and don't keep them flat under a heavy weight. The latter isn't good any time. You can use a firm pressure to maintain flatnessno weight, however.

recent poll conducted by the Gotesborg-Posten concerning the most beautiful stamp of Sweden resulted in a big triumph for Scott No. C8 of 1942, showing flying swans. After 18 years this stamp is still available at the Philatelic Agency of Sweden.

Luxembourg Item For Schuman Plan

Luxembourg has announced the May 9 release of two commemora tives. A 2.50 francs claret will note the tenth anniversary of the Scu man plan. This resulted from the call issued by President Robert Schuman for the unification of the European coal and steel production.

The second will be a 5fr. steel blue and dark gray item. It will be in tribute to the first European school which was set up to care for the education of the children of officials of the European Coal and Steel Community which is being noted by the other stamp just mentioned.

The designs show, respectively, worker with a white-hot steel outlining the initials of the ECSC (in French, CECA for "Communaute Europeenne du Charbon et l'Acier") against the background of the map of the six member countries, and six children marching before the school.
S. L. Hartz of Haarlem designed

the low value, Foni Tissen of Rume-lange created the other. Steel plate printing is being done by Enschede en Zonen, Haarlem, The Nether-

Funds may be sent by international money order, bank draft or certified check, to Direction des Postes, Office des Timbres, Luxembourg. Airmail (15c per half ounce) is recommended.

More On "Printed Both Sides" UN Item

Strite, Hollis, N. Y. UN specialist who purchased the sheet of United Nations 8c "printed on both sides" Palais de Chaillot stamp reported in last week's Linn's has supplied additional information about the rare find which he purchased for \$4000 from the young Brooklyn finder.

"The sheet has the impression, on the gummed side, of a recent is-sue of Kuwait. The entire sheet is covered by the green design which is the same color as the border of the UN adhesive," he said.

Continuing, he quoted N. Penty of Thomas De La Rue & Co. Ltd., London, which printed the issue: "When the pages of stamps are printed, they are automatically interleaved with pages as they leave the machine to prevent the wet ink from being impressed on the back of

the following sheet ...
"In this case the impression of the previous printing on the inter-leaving sheet was sufficiently wet to be taken off on to the back of the United Nations stamps. Our stamp examiners always check also the gummed side of the stamps dur-ing examination, but on this occasion this printed impression was missed by the examiner.'

Canadian FD Of Issue Procedure Explained

With the recent rapid increase in interest in Canadian first day cov-ers, collectors should bear in mind that the first day of issue procedure in that country varies somewhat from that followed in the United

on sale at all principal post offices on the first day of issue, although formal first day service is extended only at Ottawa. Secondly, there is

According to Canadian Postmas-er General William Hamilton, be purchased over the purchased over the color of the Postmaster, Ottawa 2, Ont., stamps may be purchased over the counter on the day of issue at all offices. Also, first day covers will be serviced for patrons calling in person, but only the normal canceling equipment will be used.

During the past few years various organizations, especially of phila-telic interests, have provided first day service at points other than Ottawa. One example was that at

Ottawa. One example was that at Baddeck, Nova Scotia when the "Silver Dart" 50th anniversary stamp was issued last year.

In such cases the Post Office Department and the local post offices cooperate fully. Such projects are, in fact, encouraged by the POD.

Collectors interested in purchasing stamps by mail or in ordering first day covers should clip the following instructions and file them for ready reference in the future. Directions are given for each type of service; they must be followed carefully.

First Day Covers—All patrons who

desire to have first day covers bearing the new stamp, specially can-celed on the day of issue, are re-quired to forward addressed envelopes to the Postmaster, Ottawa 2, Ont., Canada, not to the Philatelic Section, to arrive not later than 48 hours before the day of issuance. This FDC service is available only

at Ottawa.

All envelopes must contain fillers and must be sealed or have the flaps turned in. To avoid errors the patron should mark on the cover upper right hand corner, the quanof stamps to be affixed to each

The necessary space should be allowed if blocks are ordered.

Applicants must not fold envelopes

when forwarding them for servicing tered mail.

Orders to be returned by registered mail must include an additional 30c registration prepayment

Covers will not be returned in bulk under an outside cover.
Orders for first day cover service

must not include orders for mint or unused stamps. Remarks or inquiries not related directly to the order for first day covers should be writ-ten on a separate piece of paper.

In addition to the cost of postage required to be affixed at ordinary, airmail or registered mail rates, collectors must include in their remittances sufficient money to pay the Department's cover service fee amounting to 5c for each forwarded for service.

The Postmaster, Ottawa, can not guarantee to supply plate blocks of four which will be distributed as equitably as the supply permits. The Philatelic Section will not han-

dle first day covers.

The postage rate on first-class mail for delivery in North and South America, the British Commonwealth, France and Spain, is 5c. The first-class mail rate for Ottawa local delivery is 4c and for countries not mentioned above is 6c. The fee re-quire for registration is 20c additional. To avoid having covers spoil ed by postage due markings sufficient postage must be prepaid on

Plate numbers will be supplied on the basis of one for each ten stamps ordered. Usually, only one plate number (No. 1) is printed.

Remittances should be made by means of postal money order or bank draft in Canadian funds, pay-able to "Receiver General of Canada". Patrons from countries other than Canada or the United States should forward remittances by means of an International Money Order. Postal Notes can not be accepted.

Registration fee and surface mail postage are paid by the Canadian POD on orders from Canada and the United States.

THE WILSON PLAN
Want to cut down on accumulating duplicates? Want to build up those weak countries economically? Then the WILSON PLAN is the answer. Here is the idea in a nutshell: For example you have say 200 different Norway stamps in your collection. You decide you wish to increase it to 300. You deduct the difference in price from our list. Your 200 different are worth \$2.25; the 300 different \$6.50. You remit the \$4.25 difference. We send the 300. You remove the 100 you do not have, returning the remaining 200 to us. It is that simple! Or you might decide to increase to 400 or 500. It can work on any size packet on any country from our list as long as the difference is \$3.00 or more per country. Send for the WILSON PLAN APPLICATION and latest packet price list offering almost 2000 different collections.

Lot of 150 all different commemorative plate blocks, also starting with #610, but of course, there are many better ones in this lot which will not be found in the 100 different, price \$29.99. We doubt if this could be duplicated anywhere at this price.

We have an excess amount of mint air mails, so will offer \$100.00 face for \$95.00.

\$100.00 face for \$95.00.

Flag set, #909-921, only \$75.00 per 100 sets. This figures around 15% over face and buying prices on some of these number are over face. Therefore, you can afford to use the more common ones for postage and save out the better ones for resale. In this way, it will cost you very little and your customers will appreciate it. Used flags are coming in to their own at last and I still think the mint will some of these days as there were only around 20 million issued and it seems as though we have used that many for our postage ourselves.

we have two genuine copies of the original etching from which the scene "Cattle in Storm" was taken to make the motif of #292, the \$1.00 black Omaha stamp. This rare etching known as "The Vanguard" was etched by C. O. Murray, Sc, from the famous painting by MacWhirter. Size "x10". In 1935 these were offered in Stamps Magazine at \$35.00 each, we will sell ours at \$15.00 each.

MISCELLANEOUS ASSORTMENT of postage dues with a good variety and also many of the older ones. Face value is \$25.85, can't see how you can hardly go wrong on this one at only one half face, net \$12.92.

one half face, net \$12.92.

U. S. COVER LOT, these are all first flights and contain practically all better items, such as the 2c reds, loaded with 5c Lexingtons, Walloons, Norse-American Ericson, etc. We are selling this lot for less than the wholesale price of the stamps off cover. It is really a beautiful lot, so whether or not you want first flight covers, you can't go wrong on this one. There is a total of around 200 covers, net \$195.00.

one. There is a total of around 200 covers, het \$195.00.

Stock book loaded with U. S. envelopes, some entire, but mostly the cut squares, both used and unused. These were all classified by a local man who is more or less of an expert along these lines. Must be a total of 2,000 or 3,000, maybe more and a very good variety. This should prove very profit-wise to either the collector, accumulator or dealer as all the work, (headaches) has been done. Catalog value is 3741.00, ne only \$129.00. We might add, there is one entire envelope of #UC3, one of UC6 and three cf #UC4, unused.

#899, we have several blocks of this number, partly imperf. As most of you know, this happened quite occasionally on the National Defense issue. Ours are not imperf all the way across, just partly imperf. We can offer a mint block of 4 at \$2.00, or a mint block of 6 at \$2.50, which is way below the market.

 ± 901 . Same description as ± 899 , but we have these only in blocks of 6 at \$2.50 each.

Presidential issues, (1938), #803-34. We have just acquired several very fine sets of both singles and blocks. We have had these listed several times before and never had enough to supply the demand, maybe this time we will. Face value for singles \$11.87 net \$13.04. Pace value for the blocks \$47.46,

net \$52.14.

Late blocks. In taking inventory, we find an excess of the following numbers, 806, 807, 928, 933, 945, 1033, 1035, 1036, C25 and C32. In 100 lots per like number, we will sell at face plus 10%, so pick out the numbers you want per 100 add 10% and we'll send a nice selection with a good variety of plate numbers if you ask for them. These have not been checked as for good plates. In fact, we don't have a Crane list and wouldn't have time to check if we did. There are current buying ads offering 12% over face for this material, so I guess the price is reasonable enough.

We have a few nice sets of mint plate blocks as follows: (303) #740-49 \$16.75 (306) #803-34 \$89.00 (309) #C25-31 \$10.75 (304) #756-65 25.00 (307) #803-31 24.00 (310) #C34-6 2.75 (305) #785-94 4.25 (308) #930-33 .70 (311) #C42-4 3.50

We have many U. S. collections just as purchased, which contain both mint and used. These are in the Scott's National and Scott's American Albums. No time to work them into our regular stock, so as long as they last, we will offer them at ½ Harris retail price and, of course the album will be free. For example, if you want \$200.00 Harris retail price, send us a check for \$100.00 \$400.00, check for \$200.00, etc. The minimum order accepted will be \$100.00 and maximum, \$2.000.00. Anywhere between is all right, but in case the collection goes a few dollars one way or the other from your remittance, we will either bill you for the difference, or refund. These are not junk collections and you will find many of the popular items and complete sets included. In fact, a lot of the material will go for less than currently advertised buying prices. Naturally, satisfaction guaranteed.

We also have a fine stock of Canada and Newfoundland and

We also have a fine stock of Canada and Newfoundland and will make up collections on the same basis as the above lot, #312. Minimum order on this, \$50.00, maximum \$300.00 When ordering, be sure to state if you want Canada or Newfoundland. These collections will also be both mint and usez.

Joachim Dill Martin Luther Str. 28 Bad Neustadt/fraenk, Salle West Germany

Robert Koch commem—On May 27 West Berlin will issue a 20 pfennigs red brown and violet stamp in an edition of 5,000,000 copies for the 50th death anniversary of Robert Koch, discoverer of the bacteria of tuberculosis and cholera. Born at Clausthal December 11, 1843, he died

at Baden-Baden May 27, 1910.
The design by R. Gerhardt, engraved by H. Brabant, shows Koch's portrait and a microscope. The former was derived from a relief Prof. Schmarje which is still in the Robert Koch Institute in Berlin. Printing will be done on the usual DBP white watermarked paper by the Bundesdruckerei, Berlin. Validity will extend throughout 1961.

"Three times" FF covers—Many of the covers posted for Linn's read-ers for the April 1 Lufthansa LH-420 first flight from Frankfurt to New York were duly returned to Germany April 5 and 7. All were properly cacheted, canceled and then backstamped in New York.

On the respective dates of their return to Germany, they were again posted out to their addresses in the Schwaebisch Hall, (21b) Luenen, States, and I am curious to learn (21b) Olpe, (24b) Schleswig, (142) whether additional markings will be Goeppingen, and (14a) Stuttgartapplied to indicate their three crossings of the Atlantic.

Right here I might add that any covers which arrived too late for that April 1 hop are being held for the next FF, some time in May. Readers may accordingly send cov-ers for this event, but they are asked to correct a rate error which appeared in the March 7 instructions. The basic airmail letter rate is 60 pfennigs for five grams (1/6) ounce) and not the higher residual limit rentiened there. weight limit mentioned there.

West German activities-In addition to the Welfare set and regulars, West Germany plans the follow-ing stamps for 1960: a single for the 125th anniversary of the first German railway which was opened in December 1835 between Nuremberg and Fuerth. The "Ludwigs-Eisen-bahn" was built within one year, covering a distance of six kilome-

Another stamp will mark the 1000 years jubilee of Bishops St. Bernard and St. Godehard. The former (933-1022) was bishop at Hildesheim, while St. Godehard (c. 960-1038) served in the same office from 1022 until his death.

The American general and statesman George C. Marshall will be honored on the first anniversary of his death by a suitable issue, in appreciation of his "Marshall Plan program which was of such great importance to European recovery following World War II.
September 19 will bring the Eu-

ropa set. Designed by Finnish artist P. Rahikainen, the motif shows the wheel of a mail couch. All Europa 1960 adhesives will bear the initials "C.E.P.T." (Conference Europeene des Administrations des Postes et des

es Telecommunications).

The "Fauna and Philately" exhibition in Cologne will be held July 1-10. Three special postmarks will be used: a mobile post office July 3 (or 10, bad weather date) will depict a balloon which will ascend, but NOT carry mail. A second such office at the Cologne Town Museum will use a design with an elephant and a mouse. Exhibition facilities will service covers at 10c each. Orders should be sent to Kurt Retzlaff, Koeln-Lindenthal, Gottfried Keller Str. 15, Germany.

Other special postmarks for early use in West Germany will be applied May 14-25 at (22c) Koeln-Deutz depicting a farmer's wife; June 7-12 at (16) Frankfurt, showing the city hall; and April 23-October 25 at (18) Saarbruecken, for the German- in the 17th century as a religious French garden exposition.

New York 60.

Philately Of The Holy Land

Leon Walters 58-31 207 St. Bayside 64, N. Y.

The recent change in Israel currency has been reflected in some innovations in Israel's postal paper. In one of them the Ministry of Posts decided to turn a new leaf and start anew the plate numbering system. As a consequence the latest provisional issue started with plate Nos 1 to 10. The next issue of three airmail values, however, had plates numbered 11, 12 and 18, and therefore an explanation for the "missing plate numbers" is necessary. The three values are only part of a complete set of ten and the other stamps will appear in due time. The plate numbers were assigned beforehand and are listed as Nos. 11 through 20 for the values of 0.15, 0.20, 0.25, 0.30, 0.35, 0.40, 0.50, 0.65, 1.00 Pound, and an as yet undecided higher value, respectively.

The other innovation is placing additional numbers on the plate blocks. The numbers nearest the stag emblem indicate the date of printing of the particular value and not the date of issue of the stamp. For example, 301259 means the stamp was printed December 30, 1959. The additional numbers are for control pur-poses only. So far the following dates of printing have come to light:
0.01 (1 agora) provisional issue,

October 27 and November 8, 1959; 0.03 (3 agorot), October 25, November 9; 0.05, Oct. 15 and 18; 0.06, October 19 and 20, November 15, 16 and 17; and 0.08; October 30, November 10.

Also 0.12 (12a.) October 7 and 8, November 11 and 12; 0.18, October 21; 0.25, October 9 and 13; 0.30, October 28, November 15; and 0.50, November 2 and 4.

And airmail issue 0.15, January 21, 1960; 0.20, December 2 and 24; and 0.65, December 30 and January 3. Any additional dates known to collectors, will be appreciated and published.

The postal saving stamps shown in my first (April 11) column are inscribed "Banq Hadoar" (Postal Bank) and "Bul Hisakhon" (Saving stamp). The postal services usual-

We herewith reproduce one of the previously used postal saving stamps. The new ones come in sheets of 50 without gutter but with plate and control numbers.

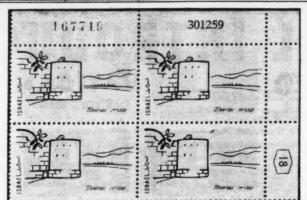

As we previously reported, Israel has issued two stamps as commemoratives for World Refugee Year. The following background was taken from a folder first issued by the Philatelic Services, State of Is-

The Artist—At the beginning of May 1948 the first Israel postage stamps were being printed in anticipation of the establishment of the State. Among the few persons tensely watching the first sheets coming off the press was Otte Wallish, the designer of this first "Doar Ivri"

Indeed, Otte Wallish has been closely connected with Israel ever his student days in Vienna, when he was active in organizing the Zionist Youth Movement in Austria and Czechoslovakia.

Later, as a practicing graphic art ist, he introduced modern visual methods into his work. On coming to Tel-Aviv from Central Europe in 1934, he opened his own advertising agency. In those days publicity, like most other work, meant pioneer work in this country, and a good deal of his ever present dynamic enthusiasm was needed in this job.

Numerous Israel postage stamps have been designed by this artist as were the first nine values of Israel coins, various emblems, and last but not least, the "Scroll of

With the advent of the agorot denominations of Israeli stamps, that nation also instituted a new plate numbering system as shown on the above block of the 65a. airmail from the author's collection. The number is contained in the elongated hexagon at the right, while the figures at top right break down into "30-12 (December)-(19)59" to indicate the date of the actual printing. At upper left are other control numbers.

Independence", in which the princi- refugee problem, with its climaxples of the State of Israel were laid the Nazi holocaust, down. However, according to Mr. In 1948, when the Wallish's own words, his proudest moment was that day in May when the first Israel stamps became a reality.

The reports of the World Refu-gee Year are marked by a significant omission. The Jewish refugee problem, which was for so long a burden on the conscience of the world, no longer figures in the records of international agencies dealing with the rehabilitation of the homeless.

This is not to say that there are no more Jewish refugees. Insecurity and oppression, the causes of most of the world's refugee problems, are still the lot of a fair section of the Jewish people. There are large numbers of Jews even today who cannot remain in their present abodes.

The search for a new home, how ever, is no longer the tortuous quest it was in days gone by. The emer-gence of the State of Israel has opened up the prospect of a permanent home to any Jew compelled by political or social pressures to become a refugee.

For centuries the Jews were the classic refugees of the world. Fre-quently, they were expelled from the countries where they had been settled for centuries. Their constant insecurity rendered them potential refugees at all times. It was not until the emancipation

of the Jews in the first half of the 19th century, that they were accorded the status of legal security in the countries of Western Europe, though not everywhere of civil equality.

In Eastern Europe, however, notably in Czarist Russia and Roumania, Jews were denied even legal security. The 1880's saw the beginning of an era of official persecutions and tolerated mob outbreaks. This gave rise to a new Jewish 1335 E. Madison Park

In 1948, when the State of Israel was established, its first act was to throw open its gates to the "immigration of Jews from all countries of the dispersion." Since then more than 900,000 have settled in Israel.

They came from displaced person camps and hideouts all over Earope; from Asian and African coun tries including Yemen, Iraq, Egyp and Morocco. Most of them arrive completely destitute. In many car their property and assets had been sequestered before their departure by the authorities of their cour

ilies Scheme" designed to enable Arabs from outside Israel to join their families residing in the country.

Thus there are no longer any Arab refugees in Israel depending for their maintenance and support on international institutions. The former Arab refugees, together with the other Arab residents numbering about 220,000 have benefitted from other the general development activities and from the various special schemes.

These have included irrigation, electrification and rural reclama-tion carried out under the auspices of the government in the Arab vil-lages and districts of Israel.

Absorption and rehabilitation created enormous problems, involving tion. old-timers and new arrivals and cre-ating difficulties in many ways. Housing and employment had to be

made available, new towns and vil-lages had to be planned and built. By means of large scale irriga-tion projects, areas hitherto written off as bad land, have been reclaimed and opened up to agricultural settlement. In the new urban regions refugees were trained for new jobs in industry at vocational schools or at special courses held at their places of employment.

Israel's experience in refugee absorption bears out the lessons taught by refugee habilitation in other parts of the world. The problem is essentially a psychological one. The refugee must be given the chance of a new life in congenial surroundings among people of his own kith and kin who genuinely welcome his arrival.

His mind must be centered on the future and not on the past. His interests and energies must be directed to becoming an active member of the society which has received

He must be treated as an equal he must be given scope for the de-velopment of his creative abilities. He must be helped to be self supporting, and he must be enabled to build a future for his children. He must find a new joy in life and thus he will cease to be a refugee. Recently issued cancellations — The practice of issuing special or slogan cancellations started in Israel practically with the creation of the State. This manner of attracting people's attention—which is known all over the world—is utilized extensively in Israel. The cancel-lations are usually in use for 30 days and are one of the topics of Israel philately.

The slogan cancellation "Join the fight against death on the roads" was introduced January 1 in Jerusalem, as also was "Your contribution to the fund drive is helping to

build the country" on February 1. Special cancellations for the ninth Histadrut Convention appeared February 3 and for International Refugee Year April 4.

Philately of the Holy Land at Barcelona—The first International Philately of the Holy Land at Barcelona—The first International Philately

atelic Congress and Exhibition was held in Barcelona, Spain, March 26-April 5. In planning the show every aspect of philately was considered and the show reflected this attempt. In addition to the usual frames in competition the organizing committee invited 73 foreign governments. ing committee invited 73 foreign gov-ernments among which was the State of Israel

The exhibit of the Israel Post Office Philatelic Services was very impressive. It consisted of four and showed progressive frames proofs of trial colors and final stamps of the recently released World Refugee Year stamps and in addition the April 27 12th Inde-

The Jan Amos Komensky Issue in the stamp; see Figs. 1 and 3. The secret markings are hardly visible above the frame line and left corner of the "N". The vertical space be-Of Czechoslovakia--A Study Of of the "N". The vertical sp. tween the stamps is 4.1mm. Its Type And Plate Variations

During the past few years we have had very few errors or plate varieties on any stamps of Czechoslovakia, since that nation now has fine equipment and good engravers. But as in everything else the engravers are human and the equipment sometimes fails and mistakes happen

One of the finest stamps lately issued by Czechoslovakia was the one to commemorate the famous Jan Amos Komensky, Scott No. 795. A very nice item was issued, engraved by Jindra Schmidt. He is a very fine engraver; ih fact, one of the best in Europe.

The design was by a very good friend of the author. Prof. M. Svabinsky. Since Jan Amos Komensky is such a famous person in Czechoslovakia and the whole country is so proud of him, Prof. Svabinsky expressed his wish to the postal authorities that the stime should be lines. thorities that this stamp should be issued in an engraved form of a large format and in a sheet of only four.

The Postal Authorities granted his wish, and the stamp was printed by the flat process in blocks of four from steel engraved plates. One of the reasons the request was granted, was the important fact that here we had a stamp to be printed from a flat plate, and the Post Office had no equipment that would print a larger sheet.

Again, from the practical point the stamp had to be made into sheets of four only to bring out its real beauty; a larger sheet would not receive the proper pressure on the edges to get a fine stamp re-produced. The POD made many trial proofs, and duly decided that the finest result would be in sheets of four only.

Considering the large quantity to be printed, and due to the engraving of heavy lines we were faced with another problem: the plate would wear out and the stamps must be printed from several plates. Thus the engraver had to prepare several plates, and it was necessary from the very beginning to change them more often than usual. The plates were later chrome plated to help extend their life.

All in all, a set of ten plates was made up, but only eight of them were used for actual printing. When the proofs were made, it was discovthat a plate so full of lines could not produce a fine stamp, therefore the plates had to be sent back to the engraver to be correct-

We were faced with a similar problem in 1950, when the souvenir sheet the Praga Philatelic Exhibition (Scott No. 434a) was printed. At this time the plates had to undergo a great deal of retouching, and engrav-Jindra Schmidt worked very hard on them. The changes are hardly visible and that was the reason for so many plate varieties. At that time the author wrote a detailed article on the types and varieties of that souvenir sheet which was printed and reprinted in several type with four cross lines, we must philatelic magazines.

It was noted that the engraver made a few markings on the plates, which I presume were made more or less as a precaution that any corrected plate would not be worked

over a second time.

Here we are faced with the same problem. The plates on the Komen- only indiviual stamps on hand we sky stamp, after being corrected, miss the boat on many types and were marked with cross lines over subtypes. The writer had over 1000 were marked with cross times with the vertical lines on the lower right portion of the coat. To be able to different intervals, so they should not all be from the same stock of the different plates by sary to discuss the different positions and varieties of the secret ly types and explain the characteris-markings also.

All four stamps in each sheet have the same markings as to the engraved cross lines; they also have the same secret markings which always appear in each sheet in stamps 1 and 3 only. The other stamps, 2 and 4, are without any markings.

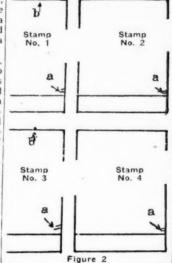

Figure 2 clearly shows where the plate markings or cross lines are located in each sheet at "a" and where the secret markings are at 'b". As explained before the plates are shown on all four stamps in each sheet, and there is no variation from that rule. So if we have sheets to compare, all we have to do is to locate the type on any of the stamps in any sheet, and we have four of the same type on the same sheet

The secret markings are always on the first and third stamp in each sheet and are always beteen the letters "EN" in Ceskoslovensko, so if we compare either the first or third stamp, we have the same variety.

In view of the fact that we have two different plates for the types without cross lines and two for the also now consider some other facts to determine which of the types each stamp is. This can be done only if we have a full sheet of four, due the secret markings which are the determining factors.

Then we must consider the spacing of the stamps in the sheet, also the shade of the color is very characteristic, the same being in most cases dark brown.

Now let's go into details: I have explained what we must consider, so now we go to work and study the types and subtypes of each stamp, or rather of each sheet of stamps.

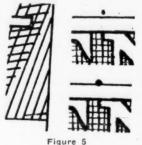

As said above, we are faced with a serious problem for when we have plates. To make it simple, I will mention and classify them all as on-

Let's see Figure 1: This is the Type I—There are no cross lines

Type II-The stamp is also the same as Fig. 3, without cross lines. The secret marking is 0.1mm above the upper frame line and more above the "N". The spacing be-tween stamps 1 and 2 is 4.3mm and between stamps 3 and 4 is 4.2mm.

The stamps were printed from flat plates on pregummed white and transparent paper. The gum is with-out any color. It would be very interesting and greatly appreciated if readers and students of research making discoveries not here mentioned, would contact the author.

In closing this article, I must also call the attention of our readers and specialists to one error discovered on another stamp, Scott No. 811. This was issued for the Youth Philatelic Exhibition in Pardubice.

As we can see from the illustra-

tion, the error is nothing else than an extra_line almost horizontal and almost parallel to the lower leg of the "L", in "Ceskoslovensko". It is found regularly in every other sheet as the 17th stamp. The sheets were printed by a rotary press in double sheets of 25 subjects each. The line was caused by a break in the roller plate from which they were print-

The control numbers on the lower

portion of each sheet are of no guidance, because the error is to be found in sheets with odd or even control numbers. The roller pro-

Notes From The Italian Area

Pierson Ostrow

Although the various Refugee Year sets of all the world have been more than adequately publicized in the philatelic press, it may still be possible to add some interesting details which have not hitherto ap-peared about the Italian and Vati-

The Italian set is particularly interesting by reason of its back-ground, which provides a mixture of fact and legend. It consists of two stamps, 25 Lire maroon and a 60L. gray violet. Both were engraved by V. Nicastro and printed on thinnish unwatermarked paper in panes of 50

subjects, perforated 141/4.

Pope and Pagan Mix—The design shows a segment of Raffaelo's "Fire at Borgo", and it is this design that makes the set of particular interest. The fresco is to be found in the Stonya di Vatingapo

Stanze di Vatincano. While Raffaelo did the preliminary cartoons or rough sketches for it, the actual work was probably done not by Raffaelo but by one of his students, Julio Romano, between the years of 1514 and 1517. In fact, this is one of the last works in which Raffaelo had a part.

The fresco itself is based upon the story of a destructive fire which raged in the Leonine City of Rome advertising space, and who have reand which is supposed to have been miraculously checked when Pope Leo and which is supposed to have been submit duplicates of their copy and IV appeared publicly and made the sign of the cross. In the background of the fresco is the old Basilica of address is P. O. Box 241, Gothensof the fresco is the old Basilica of St. Peter, damaged in the fire. However, the figures which form

a part of the fresco and which are reproduced on the stamps depict, not Romans of Leo's day, but the legendary Aeneas. He is shown leading forth his son Ascanius from the sack of burning Troy and carrying his aged father Anchises on his shoulders.

Thus we have a fine mixture of ancient legend, religious story and historical fact, all on one stamp! Certainly the subject matter—the three legendary Refugees—is a fitting one for the occasion, and the stamps are beautifully executed.

New Names for Philately - The Vatican set consists of six stamps in U. three designs, printed by photograthree designs, printed by photogra-vure on paper watermarked with Tration or a Scott Catalogue descrip-Papal keys, in panes of 40 subjects, perforated 141/4

The designs, by Grasselini, are much less impressive than are Nicastro's engravings, and the principal interest of the set resides in the fact that it will have an exceedingly short life. Validity will terminate

Authorization was by Ordinance No. 13, dated April 7. Aside from the brevity of use, it will introduce to philately two new names, those of Masacchio and Piero della Fran-

Mail Pilfering In Stockholm News

Axel Miltander, Linn's correspondent in Gothenburg, Sweden, has reported the apprehension of a Stockholm postal employee in a mail pil-fering case. The culprit has confess-ed to looting about 800 airmail let-ters from the United States during the past few months.

After extracting the negotiable funds—about \$1000, mostly in small bills, according to the man's confession to postal authorities—he destroyed all remaining material and "did the town". Such activity is very rare in the Swedish Postal Service, according to Mr. Miltander.

that American readers of Linn's were entering into correspondence with Mr. Miltander and the "Goteborgs-Posten" newspaper with which he is associated, and, to quote him, he is "sure that the robberies broke many contacts between Stateside and Swedish collectors.

"All the stolen letters were en route to Gothenburg, probably many directed to the Goteborgs-Posten with ad copy and remittances. There is no way of knowing how many, or the nature and details of their contents," he continued.

"As the thief also stole letters not containing money, we here can only suppose that some of them might have been intended for me, with comment and questions," he sur-mised. "If any readers have written and received no reply in a reasonable time, I suggest that they repeat their comments and questions.

A particularly cooperative gesture was added by the publishers of the paper, that any Americans who sent advertising space, and who have re-ceived no acknowledgement, may burg 1, Sweden.

Body Of A Saint Makes A Journey

The Vatican's set to note the return of the body of Pope Pius X to Venice finally appeared April 11, only four days after the Refugee set, according to Pierson Ostrow, specialist in Italian-area stamps.

Mr. Ostrow reports that the set consists of three stamps, all designed by Caterina Dabrowska. They are 15 Lire brown, engraved by M. Colombati; 35L. rose red, engraved by M. Canfarini, and 60L. greenish blue, engraved by V. Nicastro.

The history of this group of stamps is somewhat macabre. Guiseppe Cardinal Sarto was a Venetian. When Pope Leo XIII died in 1903, the Cardinal departed from Rome, assuring his beloved Venetians, shall come back, alive or dead."

As indicated on the 60L. value, this was done April 12, 1959. A month later—May 11—the body was permanent place on an altar in St.

The 15L. shows Cardinal Sarto departing for the Papal Conclave which elected him to be Pope Pius X. It is inscribed in Latin, "Card. Sarto ad Conclave Profiscitur — XXVI-VI-MCMIII" (Cardinal Sarto leaves for the Conclave-June 26, 1903).

The 35L. pictures the present Pope John praying before the coffin of the dead Pius, with inscription, "Ioannes XXIII S. Pii X Exuvias Veneratur Profecturas XI-IV-MCMLIX" (John offers his respects to the body of St. Pius, April 11,

Special Covers Made Available By NHPOS

The same design is used throughout, with four different color combinations of red and blue two single-color and two two-color. They are available to anyone interested in HPO activities at ten for 25c, 50 for \$1.25 for two-color envelopes; and ten for 20c, 50 for \$1 for the single-color varieties, all postpaid.

Pakistani Pair For World Refugee Year

A pair of delicately recess engraved stamps has been issued to mark Pakistan's participation in the World Refugee Year, according to the Stamp News Bureau, New York Control of the Official prospectus and any other information regarding bourse tables, banquet tickets, and program can be secured from Mr.

The design is an adaptation of the uprooted tree emblem adopted as the symbol of the WRY, with in-scription, "Help the Refugees-1959-1960" at bottom, and "Pakistan" in English, Urdu and Hindi, at the top.

Seven APU Members Use Common Design

The special stamps issued by members of the Arab Postal Union to commemorate the opening of the new Arab League Center with its Arab Stamp Museum, all have been produced at the Survey of Egypt, in Cairo, according to the Stamp News Bureau, New York City.

The one basic design, which shows the modern edifice, along with the inscription at top, is printed in green. A square panel at left (mat-triced), the sky area at right and the lower panel all are left free. These areas have been overprinted, in black, with the crest of each country and the equivalent inscriptions of face value, numeral of value and name of issuing country.

As far as is known, this is the time that a common design with different inscriptions and face values) has been used for stamps of more than two different countries since the "key plate" types of British colonial stamps.

The members of the Arab Postal Union employing these stamps are: UAR-Egypt, - UAR-Syria, Yemen, ed in Linn's of April 11.

The idea for the Center and Museum was proposed at the Union's congress, held in Tripoli, Libya in 1957, and was ratified at the Khartoum congress the following year.

London Exhibition Seals Pay Tribute To Henry Bishop

An especially interesting set of a dozen seals in a miniature sheet has been published by the organizers of the London International Stamp Exhibition scheduled July 9-16 in the British capital. Printed in dark tan with parts of the legends in black, they are issued in sheets of twelve

These labels commemorate the tercentenary of the appointment in 1660 as Postmaster General of the United Kingdom of Col. Henry Bishop who was responsible for the issue of the first postage stamping device.

Each seal shows Bishop's portrait, and the complete sheet illustrates twelve different types of markers that were issued as a result of his work. The following is a list of the towns in the British Empire of the course in th towns in the British Empire of the 17th and 18th century in which the postmark was used in the exact design or similar to that invented by Bishop. The year is that in which the device stamp is first known used: London, England, 1661; Dub-lin, Ireland, 1672; Edinburgh, Scotland, 1693; Exeter, England, 1698; and Bristol, England, 1705.

cases the actual date chosen is appropriate to the city. Twelve labels show one design for each of the twelve months in calendar order. Sheets of these labels will be obtainable from stamp dealers, at 1/6

(North America 25c).

As for biographical data on Henry Bishop, he was born in 1604, son of Sir Thomas Bishop Bt. In 1643 Also, New York, N. Y., 1758; Phil- Henry Bishop espoused the Royal adelphia, Pa., 1767; Boston, Mass., Cause during the Civil War with

PMG Summerfield's Promises House PO Committee Member

An appraisal of the present situation in the Post Office Department, along with a penetrating review of the background thereof, was given an enlightening review in a "letter to the editor" which appeared in the Washington, D. C. "Evening Star" of March 25.

The comment as set forth in a clipping supplied by Charles E. Babcock of Vienna, Va., appeared over the name of Congressman Charles O. Porter (Democrat, Ore.) who is a member of the House Post Office and Civil Service Committee, as follows

Postmaster General Summerfield and the President have just loosed on the press such a mass of erroneous statistics regarding postal rates and deficits that I feel compelled to point out the more serious distor-

In his recent message to the Congress urging further postal rate in-creases the President stated that the total postal deficit in the period between 1946 and 1959 totaled \$6,800,-

He neglected to say that a very large portion of this so-called deficit consisted of legitimate expenditures for worth-while functions of govern-

During the period 1946-1953, for instance, the Post Office was charged \$40,000,000 annually for frank and penalty mail, and \$70,-000,000 annually for the Federal airmail subsidy.

In a simple bookkeeping transaction these charges were transferred from the Post Office to other agencies of government in 1953, yet the administration would have the American people believe that the users of the mail caused these deficits during the years 1946 through 1953.

Two years ago the Congress adopted a policy for the Post Office which requires the separation from the deficit of those expenditures made in the public interest. I refer to such items as free mail for the blind, the low rates charged for books and other educational mamany non-postal services such as the registration of aliens,

These public service charges existed all during the period 1946-

1959. A minimum estimate of their annual cost would be \$250,000,000 or a total of \$3,200,000,000. That sum should be deducted from the administration's phony deficit of \$6,800,-

average citizen well knows, accom-

plished either goal.

The enactment of the administration's program of rate increases at this time would only add to the in-flationary spiral and impose an un-justifiable burden on many users, particularly postal patrons who use first-class and airmail.

By the Department's own admission these categories of mail pres-

ently show a substantial profit.

"It is high time we had a Postmaster General who would present an accurate picture of the Post Office's financial situation," Congressman Porter concluded.

rank of colonel in the cavalry. The Roundheads came to his home in Sussex to arrest him but he hid and subsequently fled via Bristol to his plantation in Virginia which he had bought in 1640 (some 1200 acres on the South side of the James River).

In 1646 he returned to England and took his oath to the National Covenant. On the restoration of Charles II in 1660 he became Postmaster General and during the following year wrote a Post Office ad-vertisement which appeared in the weekly news sheets:

"To prevent any delay, a stamp was invented that was putt on every letter showing the day of the month that every letter came to the office so that no Letter Carrier dare detain a letter from post to post and they had to deliver the same day as received in Summer, and the next morning at the latest in Winter."

On April 6, 1663 he retired. He died on 19th March, 1691/2. His life FREE! covered the reigns of James I, Charles I, the Revolution, the Com-monwealth, Charles II, James II, and William III. His pioneer work in mail handling led directly to the modern world's postal systems.

Pakistani Pair For World Refugee Year

The four recently issued Jammu-Kashmir map stamps already reported (Linn's of April 4) were completely produced at the same plant Previously it had been customary for the dies and plates to be made in London, for printing in Karachi. Seven APU Members Use Common Design

The special stamps issued by members of the Arab Postal Union to commemorate the opening of the new Arab League Center with its Arab Stamp Museum, all have been produced at the Survey of Egypt, in Cairo, according to the Stamp News Bureau, New York City.

The one basic design, which shows the modern edifice, along with the inscription at top, is printed in green. A square panel at left (mattriced), the sky area at right and the lower panel all are left free. These areas have been overprinted, in black, with the crest of each country and the equivalent inscriptions of face value, numeral of value and name of issuing country.

As far as is known, this is the first time that a common design (with different inscriptions and face values) has been used for stamps of more than two different countries since the "key plate" types of British colonial stamps.

The members of the Arab Postal Union employing these stamps are: UAR-Egypt, · UAR-Syria, Yemen, from Box 42, Long Island City 2, Jordan, Sudan, Libya, and Saudi N. Y. expects to take off around Arabia. The UAR pair was describ-

The idea for the Center and Museum was proposed at the Union's congress, held in Tripoli, Libya in 1957, and was ratified at the Khartoum congress the following year.

London Exhibition Seals Pay Tribute To Henry Bishop

An especially interesting set of a dozen seals in a miniature sheet has been published by the organizers of the London International Stamp Exhibition scheduled July 9-16 in the British capital. Printed in dark tan with parts of the legends in black, they are issued in sheets of twelve

These labels commemorate the tercentenary of the appointment in 1660 as Postmaster General of the United Kingdom of Col. Henry Bishop who was responsible for the issue of the first postage stamping device.

Each seal shows Bishop's portrait, and the complete sheet illustrates 1769; Albany, N. Y., 1774; Charlestwelve different types of markers town, S. C., 1774; Quebec, Canada, that were issued as a result of his work. The following is a list of the lit will be noted that in many postmark was used in the exact de-sign or similar to that invented by Bishop. The year is that in which the device stamp is first known used: London, England, 1661; Dub-lin, Ireland, 1672; Edinburgh, Scotland, 1693; Exeter, England, 1698; and Bristol, England, 1705.

show one design for each of the twelve months in calendar order. Sheets of these labels will be obtainable from stamp dealers, at 1/6 (North America 25c). As for biographical data on Henry

Bishop, he was born in 1604, son of Sir Thomas Bishop Bt. In 1643 Also, New York, N. Y., 1758; Phil-adelphia, Pa., 1767; Boston, Mass., Cause during the Civil War with

PMG Summerfield's Promises And Bookkeeping Reviewed By House PO Committee Member

An appraisal of the present situation in the Post Office Department, along with a penetrating review of the background thereof, was given an enlightening review in a "letter to the editor" which appeared in the Washington, D. C. "Evening Star" of March 25.

The comment as set forth in a clipping supplied by Charles E. Babcock of Vienna, Va., appeared over the name of Congressman Charles O. Porter (Democrat, Ore.) who is a member of the House Post Office and Civil Service Committee, as follows:

Postmaster General Summerfield and the President have just loosed on the press such a mass of errone-ous statistics regarding postal rates and deficits that I feel compelled to point out the more serious distor-

In his recent message to the Congress urging further postal rate increases the President stated that the total postal deficit in the period between 1946 and 1959 totaled \$6,800,-

He neglected to say that a very large portion of this so-called deficit consisted of legitimate expenditures for worth-while functions of govern-

During the period 1946-1953, for instance, the Post Office was charged \$40,000,000 annually for frank and penalty mail, and \$70, 000,000 annually for the Federal airmail subsidy.

In a simple bookkeeping transaction these charges were transferred from the Post Office to other agencies of government in 1953, yet the administration would have the American people believe that the users of the mail caused these deficits during the years 1946 through 1953.

Two years ago the Congress adopted a policy for the Post Office which requires the separation from the deficit of those expenditures made in the public interest. I refer to such items as free mail for books and other educational material, many non-postal services such as the registration of aliens, and other operations.

These public service charges existed all during the period 1946-1959. A minimum estimate of their annual cost would be \$250,000,000 or a total of \$3,200,000,000. That sum should be deducted from the administration's phony deficit of \$6,800,-000,000.

When he assumed his cabinet post in 1953, Mr. Summerfield claimed that he would eliminate \$200,000. 000 of waste annually from the Post Office and, at the same time, speed mail delivery. He has not, as the average citizen well knows, accomplished either goal.

The enactment of the administration's program of rate increases at this time would only add to the inflationary spiral and impose an unjustifiable burden on many users, particularly postal patrons who use

first-class and airmail.

By the Department's own admission these categories of mail presently show a substantial profit.
"It is high time we had a Post-

master General who would present an accurate picture of the Post Office's financial situation," Congressman Porter concluded.

rank of colonel in the cavalry. The Roundheads came to his home in Sussex to arrest him but he hid and subsequently fled via Bristol to his plantation in Virginia which he had bought in 1640 (some 1200 acres on the South side of the James River).

In 1646 he returned to England and took his oath to the National Covenant. On the restoration of Charles II in 1660 he became Postmaster General and during the following year wrote a Post Office ad-vertisement which appeared in the weekly news sheets:

"To prevent any delay, a stamp was invented that was putt on every letter showing the day of the month that every letter came to the office so that no Letter Carrier dare detain a letter from post to post and they had to deliver the same day as received in Summer, and the next morning at the latest in

On April 6, 1663 he retired. He died on 19th March, 1691/2. His life covered the reigns of James I, Charles I, the Revolution, the Commonwealth, Charles II, James II, and William III. His pioneer work in mail handling led directly to the modern world's postal systems.

EDITORIAL (Continued from page 4)

First let us say that there are three types of Philatelic Agencies now operating. This is regrettable as there is a great amount of difference

in their methods, and the reputation of one should not be blackened by the operation of another and different type. The original was the United States philatelic agency. It operates for the supplying of well centered and first quality copies of U.S. stamps which are offered to collectors or dealers at face value in any quantity in which they may want them. It

pays no commission and gives no discount to anyone for exploiting the sale of stamps. This is the kind which brought about the term, Philatelic Agency. Now that there are in operation two other kinds, for the sale of, and the promotion of the sale of, the stamps of a country, it is regrettable that some other name was not coined for them.

regrettable that some other name was not coined for them.

Thus in the case of the Minkus agencies for the sale of stamps of Israel and Switzerland, we find it unlike the U.S. one in that it does not sell to collectors. The agencies operated by Mr. Minkus are set up to promote the sale of the stamps of Israel and Switzerland. This sale however is not directly to collectors but to dealers at face value. Mr. Minkus certainly gets a profit from his work. This profit permits him to exploit their sale. His promotional work helps the demand for the stamps which are bought from his agency by various dealers. In the Minkus agency, Mr. Minkus has no say in any way whatever as to how many issues of the stamps of these countries may be made in a year or how many stamps may be printed of any issue. These matters are controlled solely by the governments concerned.

trolled solely by the governments concerned.

The other type agency is that wherein governments have contracted with business men to take over complete control of the issuance, production and sale of their stamps. These agencies determine how many stamps per set, and how many sets are to be offered each year. Also

quantities which must be bought by a dealer wanting to sell the stamps. Collectors can't buy from these agencies. They even control the printing and production of the stamps of the country they represent. Often

stamps sold by these agencies never were in the country they represent. None of our recognized stamp dealers ever saw the possibilities of this method of selling. Some in past years had their fingers in stamp issuing by some countries, but nothing that ever approached what has been done recently through these so-called philatelic agencies.

As an example, stamps with a face value of one million dollars are sold by the country to the agency for \$750,000. The agency in turn sells these at face value \$1,000,000. This transaction makes a profit of \$250,000

for the agency. This is far better than any stamp dealer does in his

This 33 1/3% net profit however is used in small part to pay for promotion of the sale of the stamps involved. It can thus be seen that the sole reason for the release of the various sets is to make sales to

collectors for profit. It is for this reason that we call Philatelic Agencies

both Arabic and English.

The popular uprooted tree motif is not shown, but the UN wreath, April 3 and 7 were release dates of two pairs issued by the UAR Northen Region, Syria, according to specimens and limited data supplied the common design.

that a new contract be effected with a suitable firm.

The stamps for 1896 under the Seabeck arrangement arrived in Guayaquil early in November 1895 and were immediately seized by Customs and sent to Quito, together with remainders of the 1894 and 1895 issues. These latter two sets had seen legitimate postal usage, as also had the then out of print 1892 series.

Here, now, enters the rest of the story about these Seebecks. This series which did see temporary ser-vice was on unwatermarked paper, and these stamps were the only 1896 examples ever sold in Ecuador.

The 1896 Seebecks finally gave out in May 1896, before the Waterlows arrived, so various of the Germany-produced "Triumph" adhesives were overprinted "Correos-Provisionales" (Temporary Mail) and the coat of arms in black (Nos. 123-125). No errors are known.

These are the only 1897 legal overrints. Others in various colors and "errors" can be found, but they are the handiwork of private parties. Some of the stolen stock was likewise worked over with blue overprints.

It is a matter of record that the disowned 1896 Seebecks were actually all used up as provisionals and Royall used up as provisionals and Royall used up as provisionals and Royall and Royall and Royall and Royall and Royally and Royall
